

SARA - RM OBSERVATORY DIRECTOR'S REPORT

April 24, 2024

Brian Murphy

Department of Physics & Astronomy, Butler University

This report covers the time from mid-November 2023 through mid-April 2024. Due to dome issues the JKT has not been operational during the time period. Proposed fixes are outlined by Peter Mack (ACE) in a report sent to SARA on March 21, 2024. For completeness's sake I have include ACE's recommendations in this same email.
